

Off switch: if a crewmate deactivates this,
its game over

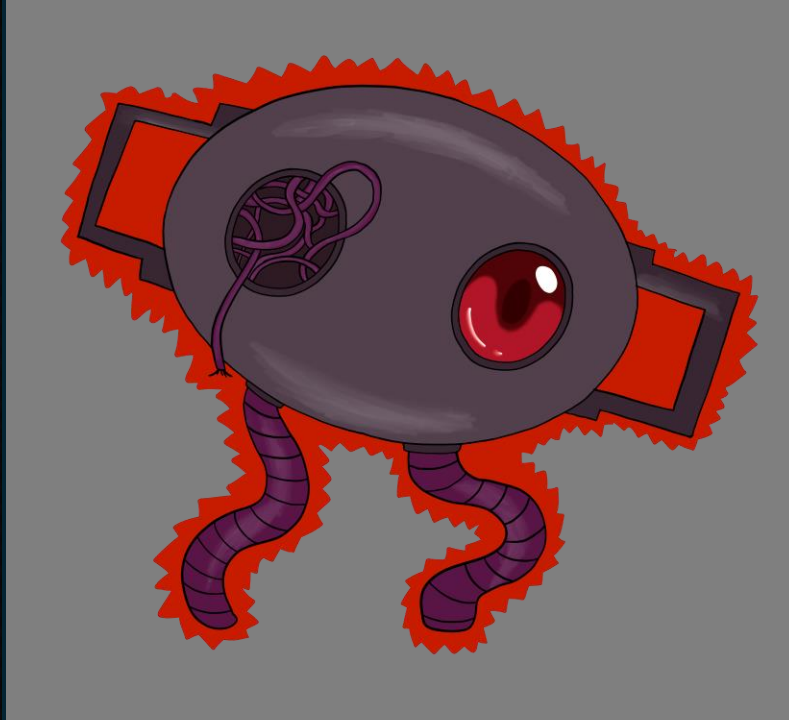

C.A.P: a computer access point that
can be disabled by crewmates that
reduce power regeneration

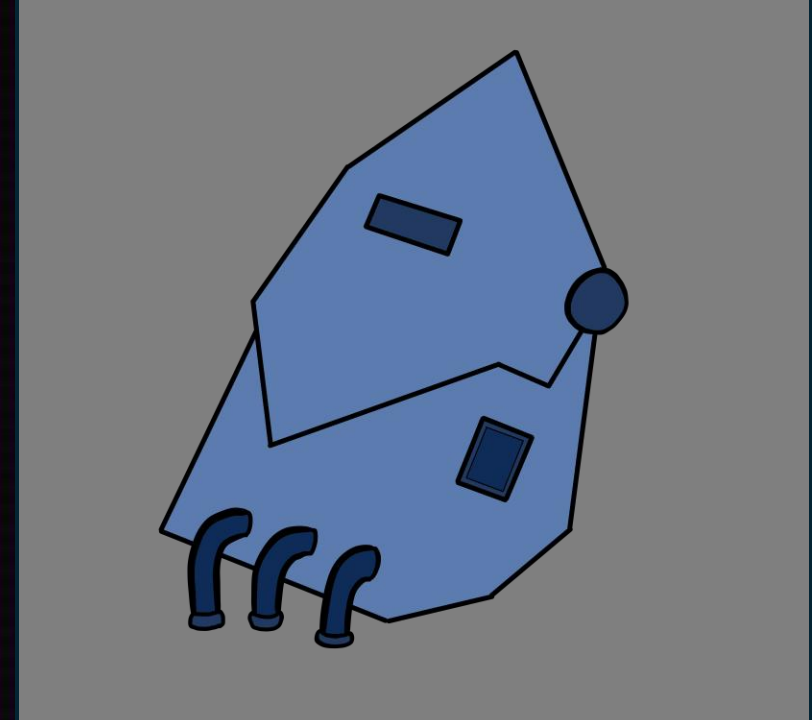

Induce fear (1 power)/ Induce greater fear (3 power): Reduce crew movement from 6 to 3/1 respectively for 1 turn.

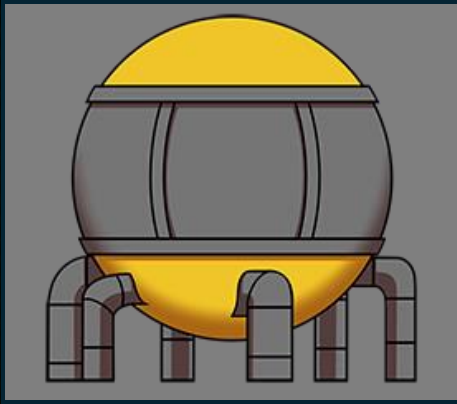

Close door (2 power): Shut a door on the ship for 1 turn.

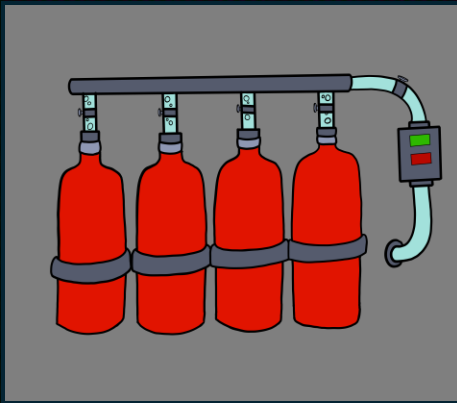

Hack robot (6 power): The robot will move to the nearest C.A.P/crewmate and will reactivate/eliminate.

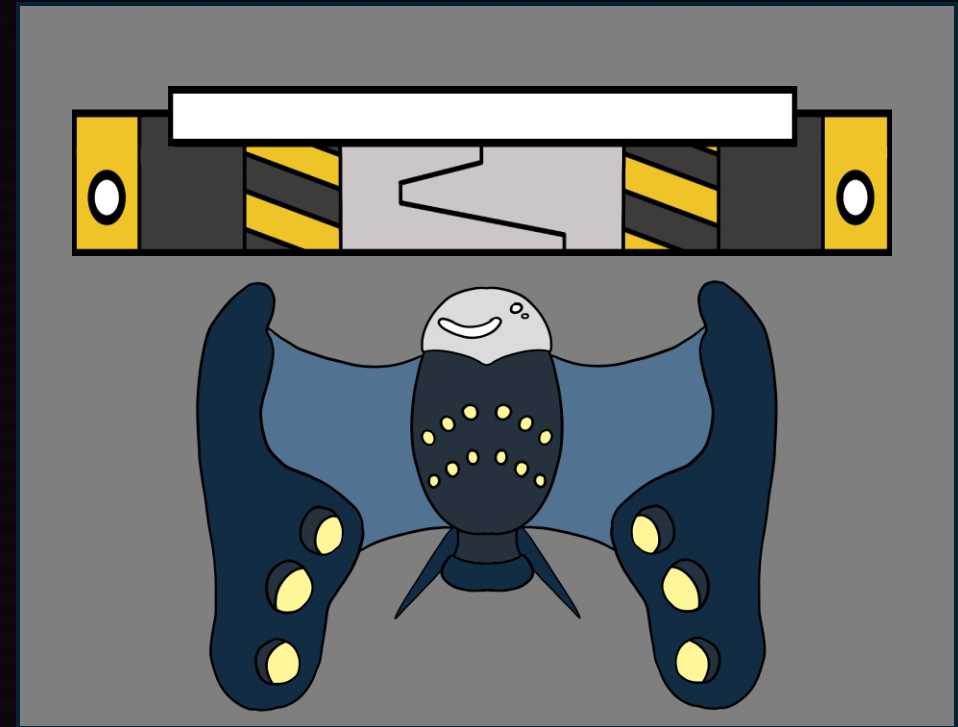

Unfreeze alien (8 power): The alien will be released and track down the nearest crewmate.

Sabotage engine (4 power): Slowly starts to spread a fire throughout the ship.

Sabotage O2 (8 power): Starts a 5-turn countdown until all crewmates are eliminated.

Open airlock (6 power): eliminates all crewmates in the room, if there is a pod at the airlock, it costs 8 power and disables the pod

Captain - immune to fear

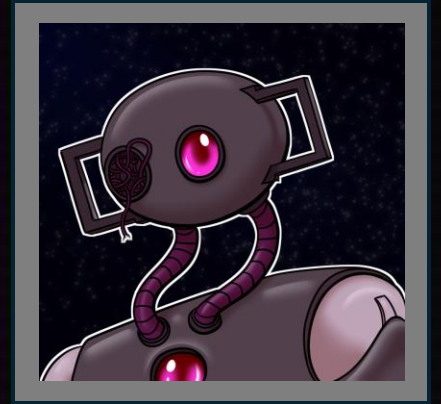

Scientist - hacks terminals
4x as fast

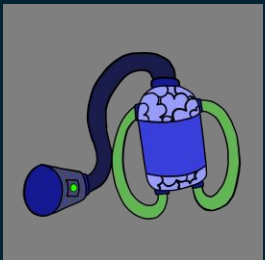

Soldier - has an extra life

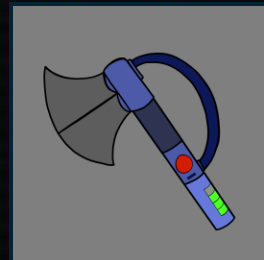

Engineer - Can go through
vents

Robot - Immune to fire

Fire extinguisher: The crewmate
holding this item can put out fires.

Axe: The crewmate holding
this item can kill the alien.
